The following information was obtained from the records of the Department of the Interior, Bureau of Land Management, regarding the land owned by the United States in the State of California.

The total area of land owned by the United States in California is approximately 100 million acres. This land is divided into several categories, including:

- Public Lands
- National Forests
- Bureau of Reclamation
- Bureau of Indian Affairs

The following table provides a summary of the land ownership in California as of December 31, 1967.

Category	Area (Acres)
Total Land Owned by U.S.	100,000,000
Public Lands	80,000,000
National Forests	20,000,000
Bureau of Reclamation	10,000,000
Bureau of Indian Affairs	10,000,000

This document is a reproduction of a report prepared by the Bureau of Land Management, Department of the Interior, for the purpose of providing information to the public regarding land ownership in California.
